SIERRA CHEMICAL CO.,
Office and Laboratory, 2424 Mission St.,
San Francisco, Cal.

GIRLS WHO SMOKE.

Some as a Remedy for Toothache, Others Because They Like It.

A letter-writer from Hartford says it is not disputed that there are a great number of Connecticut young ladies who smoke cigarettes, and many of them are less than sixteen years old. Not less than a score of Norwich maidens smoke, and two or three girls in short dresses occasionally are seen puffing at a cigarette while on their way to school. In many instances the female smokers boldly buy their tobacco supplies at the cigar stores; in others a gentleman friend, whose age ranges from six to sixty years, ministers to the feminine demand. In Hartford the number of young ladies who smoke is twice or three times as great as that in this town, and in Bridgeport, New Haven, Meriden and Waterbury there are female smokers, both minors and adults. It is evident to every one that the officers empowered to enforce the Juvenile Smokers' act will have to be men of conspicuous tact and inexhaustible discretion.

A startling illustration of the passion with which Connecticut girls have taken a stand on the tobacco question may be noted. At Waterbury not long ago a fashionable young lady talked freely with a newspaper reporter. She said: "O, yes, we all have smoked more or less. I hardly know of a girl in my acquaintance who has not smoked cigarettes at some time or other—just to see how it would taste or seem, you know. Then lots of us smoke them for toothache. You doubt it? Well, just try it the next time you have a toothache and see whether it is of any good. It's a sure cure. Most of us have the toothache quite often, you can imagine."

Still another Connecticut city girl expressed her views: "Why, of course we smoke more or less; all society girls do. I mean cigarettes, of course, though I know a good many young ladies in the highest society circles who rarely pass a day without smoking a half, or at least part, of a regular full sized mild cigar. Why, it's easy enough to get cigarettes. All the drug stores keep cigarettes nowadays, you know, and nothing is thought of a young lady who goes boldly in and buys a package. Why should it be considered a questionable act? How is a dealer to know whether the purchaser or a male member of her family is going to use them? Why, in New York and all other fashionable cities society girls learn to smoke in boarding-schools. They frequently begin by borrowing a cigarette of a gentleman friend, and after they have learned what a jolly thing tobacco is why they take up cigar smoking—just a little bit, you know, because then they have learned to enjoy smoking as a luxury, not as a novelty."

QUEER BAROMETERS.

Billiard Balls and Cues the Successful Rivals of Pet Corns.

"I can always tell when it is going to rain half a day ahead of any change in fair weather," said George Slosson to a New York Sun man as he was knocking around billiard balls in the Columbia rooms just after the recent deluge.

"How's that?" asked a bystander, getting interested directly.

"The cue ball is a better barometer in existence than an ivory ball or a good billiard cue," the billiard expert replied; "they are better than a favorite corn."

"How'd you tell?"

"A ball always rolls slow and with difficulty over the cloth when it is going to rain. Ivory is so sensitive to changes of temperature, particularly from dry to moist, that the cue is felt almost instantaneously. The cue will get cranky, too, when there is going to be a change, long before the dampness is perceptible in any other way. Another peculiarity of the ivory globes is their tendency to become egg-shaped. They contract at the top and swell out at the sides, so that you might as well play with potatoes if you do not watch the idiosyncrasies. They are worse than old men in their susceptibility to draught. A draught will crack the ivory and make it chip off quick as a wink, and like old folks, you can never get the spheres acclimated to these draughts. Just take a billiard ball and study its behavior and you can beat the clerk of the weather prophesying. You can bet on your own prophecy every time."

LOWA'S WALLED LAKE.

The greatest wonder in the State of Iowa, and perhaps any State, is what is called the "Walled Lake," in Wright County, twelve miles north of the Dubuque & Pacific railway, and one hundred and fifty miles west of Dubuque. The lake is from two to three feet higher than the earth's surface. In some places the wall is ten feet high, fifteen feet wide at the bottom, and five feet wide on top. The stones used in its construction vary in weight from three tons down to a hundred pounds. There is an abundance of stones in Wright County, but surrounding the lake to the extent of five or ten miles there are none. No one can form an idea as to the means employed to bring them to the spot or who constructed it. Around the entire lake is a belt of woodland half a mile in width, composed of oak. With this exception the lake is a rolling prairie. The trees must have been planted there at the time of the building of the wall. In the spring of the year 1856 there was a great storm and the ice on the lake broke the wall in several places, and the farmers in the vicinity were compelled to repair the damage to prevent inundation. The lake occupies a grand surface of 2,800 acres; depth of water as great as 25 feet. The water is clear and cold, soft sandy and loamy. It is singular that no one has been able to ascertain where the water comes from nor where it goes, yet it is always clear and fresh.

ROBBER SHOT DEAD.

More of the Great Atlantic Storm.

The Funeral of the Late New York Congressman, S. S. Cox.

The Great Storm

NEWPORT, R. I., Sept. 13.—The U. S. steamer Atlantic, which arrived this morning from New York, suffered no damage from the storm. It was feared she had been lost.

She was out in all the dirty weather since Monday, preferring the open sea to the chance of being driven ashore. Her officers report that she did splendidly under the most trying conditions.

ATLANTIC CITY, Sept. 13.—The German ship Geestermunde is aground on Absecon beach. The sea is very heavy and the crew will be obliged to abandon her to destruction.

WASHINGTON, Sept. 13.—The storm on the Atlantic coast continues, but with greatly diminished intensity. Northeastly winds continue on the coast as far south as Delaware. Rain has fallen on the Atlantic coast from Boston southward to Virginia.

LEWIS, Del., Sept. 13.—Waterloo, a summer resort on Delaware Bay, is entirely submerged. Out of twenty cottages only one remains.

NEW YORK, Sept. 13.—A Signal officer says there will be no let-up in the storm for the next twenty-four hours. It is still general off the east coast of Virginia. The wind has diminished to the south, but remains high along the coast. It had a velocity of thirty-one miles in this city this morning; at Block Island, 42 miles; Philadelphia, 33, and at Boston 22. The rain continues from Norfolk to Boston. The heaviest rainfall in the country is experienced in New York. The down-pour for the twenty-four hours ending at 8 A. M. to-day was 2.46 inches. The damage suffered by shipping is very severe. Ship news is hard to obtain, as all telegraphic communication with Quarantine and Sandy Hook is cut off. The gale last night drove all incoming vessels off the coast and several days may elapse before they return. The vessels in port bear evidence of the severity of the storm, in the loss of sails and rigging. The fog which has enveloped the lower bay for several days is clearing away and the long-delayed steamships are coming up to the city. All the overdue European steamers are crowded with seafaring passengers. The Anchor Line steamer, City of Rome, which arrived this morning, experienced a very rough voyage, and had a narrow escape from a collision with an out-bound steamer in the lower bay. The Cromwell Line steamer Knickerbocker, due on Tuesday, arrived this morning, after a dangerous voyage. On Tuesday many on board feared the vessel would founder. Several of the crew and passengers were injured by the careening of the vessel. Everything movable on the deck was carried away.

The Last Mad Hike.

NEW YORK, Sept. 13.—The funeral of S. S. Cox occurred to-day and, in spite of a pouring rain and a nasty wind, the church was crowded long before the hour of service, and the doors were closed, leaving many outside. The floral tributes were unusually numerous and elaborate, including pieces sent by letter carriers of the various large cities. The funeral cortege included ex-President Cleveland, Vice-President Morton, General Sherman, Governor Hoadley and George Francis Train. The services were addressed by the Rev. Dr. Beems, Rev. W. H. Wilburn, Chaplain of the House of Representatives, and the Rev. T. DeWitt Talmage. The interment will be at Greenwood.

A Robber Killed.

DAGGETT, Cal., Sept. 13.—Harry Dodson, who knocked J. L. Patterson, Superintendent of the Run Over mine, off his horse and robbed him of \$5,000, a few days ago, was overtaken by Patterson and John Ackeman near Coyote last night. He commenced shooting at them and they returned the fire, hitting Dodson five times and killing him instantly. The stolen money was found on him.

Long Island Races.

SHEEPSHEAD BAY, Sept. 13.—First race, 3/4 of a mile, Ralph Bayard won, Miss Bell second, Ocyette third; time, 1:12 1/5. Second race, 3/4 of a mile, Volunteer won, Tenna second, Mad-Stone third; time, 1:11. Third race, mile and three furlongs, won by Tea Tray, Retrieve second, Marsuder third; time, 2:27.

French Wheat Crop.

PARIS, Sept. 13.—The latest government report concerning the wheat crop of France estimates that the yield will be 111,460,000, against 98,740,000 in 1888.

Tailor's Strike Ended.

LONDON, Sept. 13.—The strike among the journeymen tailors ended to-day, the employers having reduced the working hours to ten and a half.

Senator Voorhees Ill.

NEW YORK, Sept. 13.—A Washington special says Senator Voorhees is quite ill. He had a congestive chill yesterday.

A TERROR TO THE NORTH.

The Demon Steer of the Madeline Plains.

It is doubtful if any land animal of this age outside of the elephant and rhinoceros equal in size the fully developed members of the bovine family. Very few of them are granted the opportunity of attaining full size, as they either go to the butcher shop when three or four years old, or are transformed by the knife from the deep-voiced and broad-necked head of the tribe into the piping ox and set to dragging logs to mill or pulling the plow. Even the kind of herd falls a victim to the canned corn-beef market before his time and is replaced by younger and more vigorous blood. Perhaps the finest specimen of his race on this continent is

AN IMMENSE BLUE BULL.

That roams at large over the Madeline Plains and has for years been the dread of the herdsmen, who have to gather cattle twice a year in that country. Madeline Plains is a high table land on the eastern slope of the Sierra Nevada, extending from Honey Lake Valley nearly to Goose Lake, devoted to the cattle and horse business almost exclusively. Farms are few and far between, and this beast had abundant freedom to develop. He escaped the branding iron and knife while a youngster and now has passed entirely beyond the control of the methods and appliances of the cowboy's art. No corral will hold him, and a dozen horsemen could not handle him even if they could get their ropes on him. He is, from all reports, fully as large as any of the animals that have been exhibited as curiosities, and, unlike them, his development is superb. While their ten-acre pastures gave them room to feed, his range was over whole counties, and his action is like that of a deer or a race horse compared with theirs. He has been heard of in widely separated parts of the country. Dr. Patterson of Cedarville says he broke into a field in Surprise Valley one night and ate up a whole crop of sugar cane. Ed. Ferry

AT HONEY LAKE.

Had him with a lot of beef cattle in a corral once, but he walked through it as if it was made of old newspapers. Lew Clark got a rope over one horn and his nose, but the steer was walking away with horse and rider so fast that he had to let go and lose his line. Allen Bragg saw him once in Dixie Valley and Senator Fred Cox on the river.

When the mountains are snowed under his lordship betakes himself to the rich bunch grass of Nevada, and grazes the ranges of Louis Dean and Ward Bros. with his presence, and has been seen by Colonel C. H. E. Hardin's vaqueros as far east as Quinn's River. He is said to be nothing in the country that he fears, and neither man nor animal can tame him. He has been shot at often, but

HIS THICK SKULL.

Sheds bullets like a duck's back does hail, and unless a chance shot reaches the heart he is pretty sure to die of old age. John Fleckenstein declares that he saw him and old "Clubfoot," the gigantic grizzly, come together in Surprise Valley a few years ago, which must have been something terrible to behold. They had both been invincible up to that hour and each was ready for anything that came before him. The bull seemed to get the first scent of an enemy and began to paw the ground and yell. Old "Clubfoot" accepted the challenge and marched proudly into the open and waited for the charge which came plenty soon. He reared up on his haunches and received his enemy with a blow on the side of the head that resounded like a note from a drum, but the momentum of the flying animal was too great and the bear took a tumble clear over himself. He rose in a rage and was upon him, tearing his sides with tooth and claw. The air was filled with dust and the woods echoed and re-echoed with the roar of the bear and the bellowing of his foe.

BLOOD FLOWED.

From both and the horns were tearing the shaggy coat of bruin as severely as the claws of those of the bovine. The fight resulted in a draw and John says each seemed to have had enough, as he sadly took his several rods; but as old "Clubfoot" has never been seen since, it is supposed that the terrible thrashers from the sharp horns and beatings from the thick skull were too much for him and he crawled away and died. The last place the bull was heard of was in the hills beyond Snow-stone canyon, but he may turn up nearer home as Jim Miller offers fifty dollars for him dead or alive, and Mr. Bragg ten dollars for his hide. From all accounts his horns would be a noble trophy of the chase, as they are said to be very long and extend in a handsome curve far out on each side of his head.

A HOLY WAR.

A Millionaire Manufacturer Murdered.

The London Strikers' Case Presented by Cardinal Manning.

Maine Forest Fires.

BANGOR, Me., Sept. 13.—It has been more than a month since any rain has fallen hereabouts. A very destructive forest fire is raging and the city is enveloped in a dense smoke, obscuring the sun. The condition of affairs is serious on the lines of the Maine Central and New Brunswick railroads. For miles the woods are burning on both sides of the track, nearly smothering the people on the trains. The country roads are impassable on account of the heat in many places. Counter fires are started to save the villages.

Hope of a Settlement.

LONDON, Sept. 13.—At a conference held to-day between Cardinal Manning, on behalf of the strikers, and Directors of the Dock companies, the Cardinal submitted definite proposals for settlement. These the Cardinal believes will be accepted.

The joint committee to consider the proposal of the strikers agreed that the wages demanded be conceded, to take effect on November 4th. The Lord Mayor, at a conference with the Directors of the Dock Companies, gave assurance that the men were ready to resume work on Monday.

Noble Declines to Talk.

WASHINGTON, Sept. 13.—Commissioner Tanner did not appear at the Pension Office to-day. Deputy Commissioner Smith, the acting Commissioner, believes the Commissioner was taking leave of absence until the time for him to turn over his office formally to his successor.

Secretary Noble refused to say anything in regard to the report that the Hon. Wm. H. Warner will be in Washington to-day in response to a telegram sent him in regard to his taking the office of Commissioner of Pensions.

Shot Through the Heart.

NEW YORK, Sept. 13.—F. W. Gesswin, the millionaire tool manufacturer, was murdered this morning by Christian Diehle. Diehle claimed that Gesswin defrauded him in a patent transaction. He entered Gesswin's office this morning and demanded \$500. Gesswin refused and Diehle shot him through the heart. Diehle is 60 years old and was arrested.

A Religious Riot.

SIMLA, Sept. 13.—During the celebration of a religious festival at Roh-tak, Mussulmans and Hindoos became involved in a religious dispute which led to rioting. Police were compelled to interfere, and many rioters were shot by the officers. Mussulmans at Delhi, 42 miles north-west of Roh-tak, organized to avenge the insults made by Hindoos.

Nothing New—A Trust Victory.

CHICAGO, Sept. 13.—Nothing new has been developed in the Cronin case to-day. Judge Blaggett in the United States Court to-day decided that the Minnesota anti-dressed beef law was unconstitutional.

Three Lives Lost.

BROCKVILLE, Ont., Sept. 13.—The steamer Rotheras and tug Moira collided between here and Maitland last night. Three lives were lost. The Moira sank immediately. The Rotheras had an excursion party on board and was beached.

Displaced Mexicans.

CITY OF MEXICO, Sept. 13.—A meeting was called last night to protest against Secretary Windom's action with reference to duties on lead ore. Very few were present. Nothing done of note.

Will Not Resign.

CHICAGO, Sept. 13.—Assistant Postmaster-General Clarkson says he is not going to resign and does not want Tanner's place.

TELEGRAPHIC BREVETTES.

Motion to dismiss the Sharon divorce case was argued before Judge Shafter of San Francisco yesterday. The Neagle case was argued on the question of jurisdiction before Judge Sawyer and Sabin in San Francisco yesterday. Sinner of the Palo Alto stable, a three-year-old filly, yesterday made at Sacramento, a trotting record of 2:16 1/2.

LOCAL INTELLIGENCE.

ROAD THIEVES.

A Father Educating His Children in Dishonest Practices.

The devices to make a dishonest living are many. Among the most novel is one that has been developed recently. On the Steamboat road there has lived one Louis Casagrande, an Italian, with a family of four motherless children, two daughters and two sons, the eldest daughter being now only a little past fourteen years. During the last few months various persons have lost hitching straps, halters, buggy robes and valises as passing between Reno and Steamboat Springs. A few days ago a gentleman lost his valise, and yesterday he with Deputy Constable Schuyler Coates, started out to see if they could find the stolen property. In passing Casagrande's place Coates heard some one in the rear of the buggy, and on looking back he saw the elder daughter seize her booty and start for the house. The buggy was stopped and the parties went into the house and accused the little girl of the crime, and on making their investigations they found various other stolen articles, and brought the father to town preferring a charge of petit larceny against him. Papers were taken out for a search warrant and this morning Constable Upson and Coates made the search, finding a valise that had contained over \$100 when stolen, and many other articles which had been nipped from passers by.

The chances are the father will serve the State for thus educating his children to be adepts in light-fingered work.

All Work Suspended.

All work is suspended in the engineers' department of the water surveys and the men are here with their horses and teams. W. Ham Hall is expected up to-morrow to close matters for the winter. The appropriation is exhausted.

Suit Commenced.

The Union Mill & Mining Company has commenced suit against about one hundred ranchers on the Carson river for water. The money it will cost to fight it through the Courts could go quite a long ways towards solving the question.

An Elegant Present.

W. W. Rogers of Elko has donated to the Reno free library a complete set of H. H. Bancroft's history, the whole-sale price of which was over \$100, thereby placing that institution under great obligations to him.

Laid Up for Repairs.

Both steam wagons are laid up. The big one broke an axle six inches thick of solid steel and it will take several days to get it out.

Passengers to be Transferred.

Passengers will be transferred at the Cascade bridge, and no unnecessary delay will be occasioned by the break in the rail.

BREVETTES.

To-day's east-bound passenger trains are expected to pass here some time this evening, but it will be several days before the trains can run past the burnt point without a transfer.

At the matinee to-morrow afternoon Carl Gardner will appear in "Our Fatherland," the same piece to be presented this evening. Admission 50 cents to all parts of the house, children 25 cents.

Very Risky Indeed.

To tamper with symptoms indicative of growing kidney disorder; to neglect for a brief time needful attention of the renal organs when their inactivity points, as it always and unmistakably does, to their eventual permanent disease, is certainly very risky indeed. This is, however, a risk that many persons peremptorily drifting into Bright's disease, diabetes, catarrh of the bladder, etc., constantly incur. So those who read, reflect and heed the lessons of recorded experience, the advisability of using Hostetter's Stomach Bitters as a diuretic, need scarcely more than a suggestion. No fact is more generally admitted by the medical profession and the public than its efficacy for the prevention of serious renal disease. The unmedicated excretions of commerce, no matter how pure, bear in grain, render prejudicially upon the kidneys when inactive. The Bitters subdue malaria, constipation and rheumatism.

BANKING AND INSURANCE.

D. A. BENDER, President. GEO. W. MAPES, Vice-President. C. T. BENDER, Cashier. GEO. H. TAYLOR, Asst. Cashier.

FIRST NATIONAL BANK.

RENO, NEVADA.

Johnson, of Eureka; Frank Golden, of Virginia City; Mat Healey, of Susanville; Theo. H. Winters, of Washoe Valley; R. M. Clarke of Carson; J. H. Whited, of Wadsworth; C. C. Powning, J. N. Evans, A. Benson, R. F. Robo L. Abrahamson, of Eureka; W. H. Gould, Sol. Levy, M. E. Ward, R. S. Osborn, R. H. Lind say, W. D. Phillips, E. Cohn, T. V. Julien, L. J. Frost, J. A. Mitchell, Francis Barker, of Reno. Will transact a general Banking Business. Mining and other stock bought and sold on commission. Agents for several first-class Insurance Companies.

Refer to the Records.

For many years this paper has been an earnest advocate of a proper system of water storage and irrigation, by the State. Its labors have been constant and zealous, and when the last three Legislatures seemed to be inclined that way it did all it could to stimulate and direct public opinion in their support. It was an open advocate of the use of money or lands in any sensible way to secure water storage, canals and artesian wells, whether it borrowed from the school fund or issued State bonds for the market, and when the unanimous demand for action came up from every part of the State we believed that the last Legislature, which had been elected with an eye to that purpose more than any other, would rise to the occasion and make a foundation to build a system upon. We were therefore disappointed when the matter was sidetracked early in the session and the whole labor of both Senate and Assembly, costing a thousand dollars a day, was devoted to legislating on lottery schemes and rabbit scalps. Later on another bill was introduced in the endeavor to carry out the will of the people, and it was immediately pounced upon and railroaded through with a rush which indicated a nigger in the woodpile. The GAZETTE looked into the matter and found the whole job had been "fixed" in the interest of the Carson river quartz mills and it sounded a note of warning, which stirred matters up considerably. The proposition to put up a board composed of interested members of the Legislature, with one honorable exception, was too shameful, to escape notice, and as an honest newspaper the GAZETTE has no apologies to make for calling the attention of the people to the matter.

The GAZETTE found upon investigation that engineers from the Spring Valley Water Company had been secretly employed to survey sites at the Mexican dam and south of Genoa. It found Blakeslee very busy effecting Clark's resignation, and noticed how eagerly the Governor appointed him (Blakeslee) as Mr. Clark's successor before the ink on Clark's resignation had had time to dry. It noticed what an opposition there was to M. E. Ward when his name was suggested as an available man for the position of Commissioner; and is it to be wondered at that it became suspicious?

The fact is, the matter as planned by the managers would not stand the light for a moment. Such a use of public money could not have stood an hour before the people on election day, and any one who ran on such a platform would have been snowed under and out of sight. These are the reasons the GAZETTE had for appearing in the matter, and we would have had no more to say if we had not been accused of inconsistency, opposing the development of the State by two open enemies in our own profession, who were followed by some of the other papers, as we are charitably inclined to believe, through lack of close observation rather than a desire to deceive their readers.

If the Carson river had been found on a fair showing to have been the best place to begin operations, we should have offered no objection. If the Humboldt was better, let it go there. If the Truckee is best of all, we do not intend to let our own county suffer for the want of an earnest advocate; but we defy any one to show where we have been unfair, dishonest or inconsistent in this matter above all others.

WHAT a marvel of growth is that city of Chicago, after all is said and done. Only a few years ago Chicago was considered the rival of St. Louis, a second-rate city. Behold to-day Chicago is the acknowledged rival of New York, the metropolis of the new world. Allowing for extravagance and bombast, and it must be admitted that Chicago is a greater wonder than all the seven wonders of the ancient world combined.

A TERRIBLE FALL.

And Miraculous Escape from Instant Death.

The Rocky Bar (Idaho) Bulletin of the 7th inst. says: Last Friday Samuel Hallet was walking along the tunnel on the first level of the Wide West mine with a lighted candle, and before he was aware of it he stepped into the main shaft. Fortunately the cage was at the bottom of the shaft, and he succeeded in checking his fall by grasping the wire cable, but not before he had descended about fifty feet. From this point it was at least 100 feet to the bottom of the shaft. While hanging with almost a death grip to the cable, Sam attempted to gain a footing on one of the cross timbers of the shaft, and in this attempt he was first made aware that his left leg was broken. He came near losing his hold of the wire, but finally succeeded in gaining support on a cross timber, and, by shaking the cable, attracted the attention of the engineer, who went to his rescue. When Hallet was brought to the surface it was found that his left leg was broken about midway between knee and ankle, and the ligaments of his right wrist were torn in a frightful manner. How or when his leg was broken Sam does not know, but, of course, his wrist and hands were injured by his desperate attempts to save himself by grasping the cable. Had the cage been at the top of the shaft, poor Sam would have dashed into eternity in short order. As it is, it was certainly a miraculous escape from death.

HE TOOK THE WRONG MEDICINE.

Robert Stewart, of Petaluma, recently had a queer experience. He writes: "Carbuncles and boils afflicted my face and neck for weeks. Finally I procured a bottle of one of the leading sarsaparillas. To my surprise it made matters worse. This made me lose faith in sarsaparillas, but seeing a statement that Joy's Vegetable Sarsaparilla dried up boils and face eruptions instead of forcing more out as the potash sarsaparillas do, I bought a bottle. The effect was astonishing. The carbuncles and boils began to dry up, and in two weeks my face was as well and smooth as ever. My brother also took a bottle with the same benefit. ROBERT STEWART, 'Petaluma, Cal.'"

[Explanatory Note.—The mineral iodide of potash, which is the basis of nearly all other sarsaparillas, attacks the blood directly, hence forces impurities through the skin, creating more boils and pimples. Joy's Vegetable Sarsaparilla acts oppositely. Its vegetable alteratives stimulate the various secretory organs and thus eliminate all impurities through the natural channels, hence dries up pimples and skin eruptions at once. The above testimonial is a case in point.]

The immediate symptoms of dyspepsia, or indigestion, are a distressing sense of weight, oppression and fullness in the stomach, heartburn, loss of appetite, foul breath, belching, flatulency, nausea, pains in the shoulders and breast. Dr. Henley's Dandelion Tonic promotes healthy digestion and removes all unhealthy symptoms. Sold by William Fininger.

SACRAMENTO.

OPERA HOUSE DRY GOODS STORE.

—THE—
OPERA HOUSE
DRY GOODS STORE.

THIS store is now being generally known all over the State of Nevada as the popular ONE PRICE dry goods house, and its proprietor, C. W. Booton, is well known as the

Revolutionizer of Prices and the Re-Adjuster of Values

—IN—

Staple and Fancy Dry Goods

Gents' Furnishings, Household Furnishings,

Ready Made Clothing
And Boots and Shoes.

Please note the various reasons by which I claim I have advantages over all competing houses.

1st. I buy for cash and cash only.
2d. I visit the markets in person frequently and buy my own goods myself for the lowest possible spot cash price.

3d. My aim and ambition is big business, quick sales and small profits. This is what I claim and what I hustle for. Having this object in view to give everybody good value for their money, success is already achieved, as I challenge any one to dispute that I make the lowest prices.

4th. My store is the largest and best lighted of any in the city—the three large plate glass show windows which ornament the building would do credit to any large store in a large Eastern city, light being of great importance in any well regulated store.

5th. I engage the best and most experienced and skilled salesmen that can be found in this country. W. R. Lott has full charge of my store; his experience is second to none in this country, having had charge of departments for many years in the leading houses of New York City.

6th. I do just as I advertise; I do not advertise my goods at cost, as no intelligent person could swallow so silly an announcement as that; nevertheless, many of our customers to-day advertise under the head of selling goods at cost.

7th. All goods are marked in plain figures and no goods are misrepresented.

Having now given seven reasons why I can lead all competing houses in prices, I will venture still further to convince the general public by mentioning the contents of the different departments, thus showing that I carry an enormous and well-selected stock, which can only be fully realized by calling and examining the goods of the different departments.

In the Colored Dress Goods Department

I keep all the leading shades in plain colors, including Fine French Cashmires, French Camel's Hair, Bontice Cloths, French Foule, Tricot Cloths, Tricotine Cloths, Albatros, Nuns' Veiling, French Debeiges, Fancy Striped Alpaca, in plaids and stripes. I keep all the leading patterns found in the market.

The Black Goods Department

Is well stocked with all the latest and best known brands of French Cashmere, French Camel's Hair, French Soliel, Albatros, Nuns' Veiling, Sicilian Cloths, and all the leading brands of Black Alpaca, Black and Colored Silks in all the different makes.

The Corset Department

Receives special attention, as I carry all the leading makes, including the famous C. P. Corset, and also the P. D., which I sell at prices that defy competition.

The Kid Glove and Button Department

Are replete with all the shades that can possibly be obtained this side of the Rocky Mountains.

The Hosiery Department

Deserves special mention, as I have been supplying it during the past two weeks with the very best brands of Ladies' Cotton and also Wool Hose that are manufactured on this Coast. My stock of Ladies' Misses', Children's and Men's Hosiery is unsurpassed in the city. Passing on we come to

Shoe Department.

This is a special branch that I have added to my business by special request of my customers, who continually urged me to put in a stock of Boots and Shoes, claiming, as they said—I using their own language—they were tired of paying high prices any longer. I subsequently added the above stock, and will say that my success in that department has superseded all my expectations. Men's and Boys' Shoes a specialty. Men's Shoes from \$2.50 up.

In the Clothing Department

I cannot do it justice by venturing to describe the success that continually attends it. I can only add one passing remark, that the amount of clothing I have sold during the past year is a just guarantee that the public never fail to appreciate a ONE PRICE cash business. I sell good suits for men from \$5.00 up.

In the Underwear Department,

Including Ladies' and Gents', I positively state that I sold more of these goods last season than any two competing houses. Knowing this, and then looking forward for an enormously increased trade in this line this coming Fall and Winter, I have spared no pains and have left nothing undone to secure one of the best selected and largest stock of Underwear ever brought to Reno. This true assertion will be more forcibly strengthened by anyone doubting it to call and examine the stock.

In the Domestic Department

I carry all the principal makes in Sheetings, Pillowcase Muslins, etc. Gingham and Calicoes in endless variety.

Thanking the people of Reno and the public in general for their kind patronage for the past year, and soliciting a continuance of the same, I remain, respectfully,

C. W. BOOTON,
Opera House Dry Goods Store.

JOTTINGS.

Those buying their groceries of W. T. Creig can be sure of full weight, for every pair of his scales tip with the weight of a postage stamp.

No more beautiful display of fresh candies in Nevada, than can be seen to day at Leadbetter's. Now is the time to buy grapes of him by the box. For the best quality of paints, patronize C. J. Brookins' who does not allow himself to be undersold by anybody.

J. J. Becker's Chicago Saloon is the place to go for a nice hot lunch, a fine glass of beer or a Sacramento beer, a palatable glass of wine or a good cigar. Before the storm commences, you want a few cords of J. F. Aitken's dry limb or slab wood which he will cut any length desired and deliver it in any part of the town.

C. A. Thurston's news depot is the place to go for all the San Francisco dailies, all the leading monthly and quarterly magazines and the best miscellaneous works.

S. L. Cohoon agent of John Wiedland's beer continues to be patronized by those who like an orderly and cleanly resort where a quiet half hour can be occasionally be enjoyed.

The class of transient patronage being enjoyed by the Riverside Hotel is evidence that the fame of that excellent house has gone abroad among people who want the best accommodations to be had.

Gratifying to All

The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy Syrup of Figs, as the most excellent laxative remedy known, illustrate the value of the qualities on which its success is based and are abundantly gratifying to the Cal. Fig Syrup Company.

Special Notice

Drugs, patent medicines, perfumery, chamois skins, sponges, toilet cases, etc., in great variety at Osburn & Shoemaker's.

The light running, noiseless White and Domestic sewing machines on easy terms at Osburn & Shoemaker's.

New beautiful designs in picture frames at Osburn & Shoemaker's.

Artist colors and materials at Osburn & Shoemaker's.

Beautiful decorations and wall papers just in from the East, at Osburn & Shoemaker's.

All the new buildings in Reno are being painted with "Leath and Milligan's" celebrated ready mixed paints, the best in the world, for sale only by Osburn & Shoemaker.

National Surgical Institute.
One or more surgeons representing this institute, will be at the Golden Eagle Hotel, Reno, September 14th, one day only. They come fully prepared with all the apparatus necessary for the successful treatment of their specialties, curvature of the spine, diseases of the hip and knee joint, crooked limbs, club feet and all bodily deformities. Their success in treating these troubles as well as all chronic and sexual diseases has made for the Institute a national reputation.

Upon application, references will be furnished from patients in all parts of the United States.

All persons who are suffering from any of these complaints should not fail to take advantage of this opportunity for relief.

To Test the Genuine of Tea.
A Russian analyst gives the following as a test by which tea can be proved to be genuine or not. Take a pinch of tea in a glass, pour upon it a little cold water and shake it up well. Pure tea will only slightly color the water, while a strong infusion is quickly got from the adulterated or painted leaf.

Now boil both sorts separately, and let them stand till cool, and the difference between them will be most marked. The false tea will become muddy or milky. The last appearance arises from the tannic acid, which is a natural property in pure tea, but which in artificial tea is entirely absent.

A GENEROUS MAN.
Matt. McCabe, of New Brunswick, Ill., offers to pay five dollars to any person troubled with bloody flux, who will take Chamberlain's Colic, Cholera and Diarrhoea Remedy according to directions and does not get well in the shortest possible time. One-half of a 25-cent bottle of the remedy cured him of bloody flux, after he had tried other medicines and the prescriptions of physicians without benefit. Mr. McCabe is perfectly safe in making this offer, as more than a thousand bottles of this remedy are sold each day and it has never been known to fail in any case of colic, cholera morbus, dysentery, diarrhoea or bloody flux, when the plain printed directions are followed. For sale by Osburn & Shoemaker.

Merit Wins.
We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklin's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merit. S. J. Hodgkinson druggist.

A Safe Investment.
Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from our advertised druggists a bottle of Dr. King's New Discovery for Consumption. It is guaranteed to give perfect satisfaction, when used for any affection of Throat, Lungs or Chest, such as Consumption, Inflammation of Lungs, Bronchitis, Asthma, Whooping cough, croup, and etc. It is pleasant and agreeable to taste, perfectly safe, and can always be depended upon. Trial bottles free at S. J. Hodgkinson's Drug Store.

Bucklin's Arnica Salve.
The best salve in the world for cuts, bruises, oozes, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Hodgkinson & Co., druggists.

McIntosh & Co. received another carload of Wheatland mill flour on Saturday night, and also a supply of superior oats. Wheatland flour is a favorite with all who have used it.

THE RECORD.

Why the "Gazette" Opposed the Board's Methods.

NO REFERENCE TO SCHOOL FUND.

No Objections Whatever to a Proper Use of any State Fund.

Nearly every paper in the State has noticed the GAZETTE's opposition to the misuse of the \$100,000 appropriation for water storage, and has accused us of inconsistency in the matter. We incline to the opinion that it is lack of memory in most of them when they say we objected to the use of the "sacred school fund" for the improvement of the State. All who desire to be fair are referred to the articles themselves, and if they find a word of objection to the use of any funds in the State's control, they can have full satisfaction.

The entire objection of the GAZETTE pertained to the manner of constituting the Board, and to what seemed a "job" in the interest of the already rich milling companies, at the expense of other industries. If an impartial Board had been selected, which would have looked the country over and decided on merit where to put the money, no one would have heard a growl from the GAZETTE; but to have the cards stacked and the deal made, with no chance to cut, was a little too much. If events prove that the GAZETTE said too much, or said it in the wrong way, it is willing to do the right thing. In the meantime, every word ever said on the subject is given below, and if our contemporaries find they have done an injustice, they can treat the GAZETTE as it has always treated an honorable opponent under like circumstances. On March 12th it said:

The bill appropriating \$100,000 for the storage of water which passed the last Legislature and is now a law, is attracting considerable comment. We call attention to a communication in another column which tells the story about it. The Commission, as it now stands, is composed of John R. Bradley of Elko, Evan Williams of Ormsby, H. Springmeyer of Douglas and L. A. H. Kestler of Humboldt. Clark of Humboldt was named in the bill, but for some reason he was not satisfactory to the powers that be, and Blakelee was sent to Reno to effect his (Clark's) resignation, which was telegraphed to the Governor yesterday, and Blakelee was named in his place. The whole thing, from beginning to end, is an unsavory cast, and it looks very much like a large sized job put up in the interest of the mills on the Carson river. The Commissioners have a duty to perform, and if they do not perform it well and faithfully they will find that the people have a rod in pickle for them that will be applied with a vigorous hand.

On the 13th we said:

It is difficult to see how Evan Williams or H. Springmeyer can act on the Board of Commissioners. Article 4, Section 8, of the constitution says:

"No Senator or Member of the Assembly shall, during the term for which he shall have been elected, nor for one year thereafter, be appointed to any civil office of profit in this State which shall have been created, or the emoluments of which shall have been increased during such term, except such office may be filled by the people."

H. Springmeyer expects to derive a benefit from the scheme to build dams on the Carson river, and the same can be said of Williams. He is interested in the mills on the Carson, and thereby expects to be benefited or have his employees benefited, which is one and the same thing. It would look fully as well, to say the least, if they would tender their resignations and not give rise to any question tending their eligibility.

Section 19 of the Act itself reads thus:

"SECTION 19. It shall be unlawful for any State officer, or any member of the Board of Commissioners, to be interested, directly or indirectly, or to have any interest or profit in any manner, in any work of construction any canal or other improvement for reclamation under this Act."

Can it truthfully be said that Williams is neither "directly or indirectly" interested in having the money spent on the Carson river?

On the 15th of March the GAZETTE contained the following:

"The Carson Appeal says: The Reno GAZETTE is up in arms against the \$100,000 appropriation for water storage. It thinks the money ought not to have been taken from the school fund. At the special election held last Winter, the people decided by a large vote that they no longer cared to see tied up in the school fund, money that might be of service in developing the industries of the State. A beginning had to be made somewhere, and it was decided the Carson river was good point to begin. We believe that the experiment will prove of such benefit to the State that this appropriation will only be a beginning to what will follow."

"A beginning had to be made somewhere," says the Appeal, "and it was decided that the Carson river was a good point to begin." We would ask who decided that important question? Certainly not the bill itself; so it is fair to presume that the millmen on the Carson river decided that it was a good point to begin.

"The idea of attacking the motives of the Board of Commissioners before any move has been made is ridiculous," says the Appeal.

We contend that it is just the time to attack "the motives of the Board," for it is so patent on the face of it that Williams and Blakelee, and Springmeyer, too, for that matter, propose to do just what their employers wish them to do, that we deem it clearly our privilege to thoroughly ventilate the question.

We all appreciate the value of the mining industry, and all of us understand the relations existing between the mills and the mines. We all understand that the mills have been run, not in the interest of the mining shareholders, but to enrich the mine-owners and public, and why the cattle man, the sheep man and the farmer, who are struggling for an existence, should be asked to put up \$100,000 to further enrich these shysters, is not clear.

To show that the resignation of Clark was effected by not altogether legitimate means, we here append a letter received from him:

MILL CITY, March 12, 1889.
J. N. EVANS, DEAR SIR: Yours of the 10th just received, have also just received a letter from C. A. La Grave. I will go to Winnemucca to-morrow night and see La Grave, and if not too late, I will withdraw my resignation. Respectfully yours,
J. F. CLARK.

BREVITIES.

Local and General Intelligence.

Karl Gardner to-night. Don't forget to attend.

See first page for local and telegraphic news.

Dr. Bergstein wants a girl and he wants her bad. See 50-cent ad.

Constable Upson is having pretty good luck "digging up" stolen values.

Go to Lange & Schmitt for ranges, parlor and cook stoves; best assortment in the State.

Modoc county, Cal., officials continue to arrest those sheepmen who are trying to avoid the sheep ordinance.

If you want to keep up with the latest fashion secure one of the new chataine bags at the Palace Dry Goods and Carpet House, ranging from 75 cents upwards.

Excellent, reliable and economical are the stoves and ranges sold by Lange & Schmitt; every house and store should have them. Call and inspect before purchasing.

William Levy of the Palace Dry Goods and Carpet House, went below last night to lay in his all stock of goods, and returned when they arrive they will astonish the natives.

The Commissioners of Lyon county will commence suit in the District Court of Ormsby county for the full amount claimed by them for the special election expenses last Winter.

KARL GARDNER.

The Sweet Singer. To Appear at the Opera House To-night.

Karl Gardner will appear to-night. The San Francisco Daily Report says:

Karl Gardner, who for eight years has been an Eastern star in "Karl the Pedler," began an engagement last night at the Bush-street Theater in his new and popular play—"Fatherland," and was met with a most cordial and enthusiastic reception.

The scene is in the heart of the Tyrol, which is of course the German-speaking half of that province. The plot is the simple story of a Tyrolean guide saving the life of an American widow's child, and afterward protecting them from the villainous designs of the widow's brother-in-law; and of course culminating with his marrying the widow. The plot enhances the merits of the performance, which consists of a strict delineation of local character, costumes and customs. The central feature is Karl Gardner as Herman Leopold, the guide, who is given an opportunity to sing, which he does with great success, and to dance, which he does most gracefully.

In that characteristic German combination of natural and falsetto voice Gardner sings several pretty songs. The most pleasing is "The Lilac," and as its perfume is wafted through the entire play and it is so catchy, it will be on every street in a few days. "Fatherland" is novel, interesting and musically meritorious, and will fill the Bush-street nightly this week.

The press on the Coast speak very highly of the sweet singer, and the people can rest assured of getting their money's worth.

BORN.
How the Editor of the Truckee "Republican" Celebrated Admission Day.

The editor of the Truckee Republican is happy. His wife presented him with a baby girl on the 9th inst., and this is the way he greets the little stranger:

For some time past the editor of this journal has been pondering over the question of how to get up an unique observance of Admission Day. The head of the household could not fix upon any suitable plan, but woman's ingenuity came to the rescue just in the nick of time. At an early hour Monday morning the editor's wife presented for admission into the family circle, a Native Daughter of the Golden West, weighing over nine pounds. The new member was admitted with joy and thanksgiving, and the 9th day of September had a double significance in the editorial household. The girl is probably the best and most one in the world and we write this in a purely unprejudiced state of mind. Still the world seems rather small alongside that baby and we realize that the title of papa has an ennobling and dignified effect. All three of us are getting along splendidly.

PERSONAL.
H. E. Moore, the boot and shoe wholesaler, is in Reno.

Mr. and Mrs. C. H. E. Hardin are registered at the Riverside.

E. C. Hardy of the Oasis stock ranch, Elko county, is at the Riverside Hotel.

John Rosser, one of the pioneer business men of Carson, was in town last evening.

M. S. Bonfield of Winnemucca and J. Hill of Lovelock arrived in town last evening.

J. W. Killen of the new Phoenix Hotel returned yesterday morning from San Francisco, where he and his wife went to purchase furniture. Mrs. Killen will be up in a day or two.

It should be generally known that Dr. Henry's Dandelion Tonic insures a hearty appetite and increased digestion, dispels nervous depression and low spirits, overcomes lack of energy and weakness, and infuses new life and strength into the weakest invalid. Sold by William Fininger.

BORN.
MASON—In Truckee, Cal. Sept. 9, 1889, to the wife of H. A. Mason, a daughter.

MARRIED.
YOUNG—McKAY—In Truckee, Cal. Sept. 10, 1889, Robert Young and Miss Maggie McKay.

DIED.
PERSONS—In Ruby Valley, Nevada, August 31, 1889, Mercy, daughter of Mr. and Mrs. C. W. Persons, aged 5 years and 5 days.
